1. Qualitative information on quarterly financial results

(1) Information on operating results

The forward-looking statements in this report were prepared based on information available as of the end of the quarter under review.

Based on its vision of "Create a world where all the good things are born, spread, and continue to exist," the mission of Makuake, Inc. (the "Company") is to "Connect the world through the creation of new things." We operate the "Makuake" platform to connect business operators who want to create and spread new things with consumers who wish to find new items that fit their own tastes and preferences.

The first six months of the fiscal year ending September 30, 2021, saw a continuation of the difficult conditions caused by the effects of the novel coronavirus disease (COVID-19), but the Japanese economy is expected to follow a path of recovery, as measures to prevent the spread of COVID-19 are being taken in Japan and overseas. However, we must pay close attention to the risk of global economic decline caused by future changes in the spread of infection, and the future remains uncertain.

The business environment for the Company is affected by multiple markets, including the new product offline debut market, the e-commerce market for debuting new products, and the e-commerce market for pre-ordering new services. We believe that the e-commerce market for debuting new products and services has extraordinarily high growth potential.

Under these conditions, the Company is accelerating innovation in its previous business model, helped by the tailwind of the digital transformation of Japanese society, providing a place for business operators (project owners) to debut new products and services online for test marketing and PR prior to mass production. In this way the Company continues to provide support for the introduction to the world, in a way that was difficult under the primarily off-line business models of the past, of products and services that use wonderful technology and ideas.

In addition, we are providing to consumers (project supporters), and spreading awareness of, a new form of consumption called "support purchases." This provides consumers with something that could not be experienced in the past, namely a sense of specialness that is derived from being able to acquire products that fit their own tastes and preferences before anybody else as well as a sense of connectedness with business operators (project owners), and that allows them to enjoy the sense of trust and expectation that comes from knowing the story behind the product being created.

In the period under review, using the quality assurance system that we focused on and strengthened in the first quarter as a foundation, we worked on measures to grow total support purchase value. Specifically, we made efforts to grow the number of projects posted and expand the number of unique users and the number of support purchases by increasing our exposure by showing television commercials and television programs, etc., and by rolling out strengthened recommendation and other functions on Makuake.

As a result, for the period under review, the Company recorded net sales of $\pm 2,100,387$ thousand (up 87.2% year on year), operating profit of $\pm 63,362$ thousand (down 73.6% YoY), ordinary profit of $\pm 62,911$ thousand (down 73.9% YoY) and profit of $\pm 40,597$ thousand (down 75.4% YoY).

As the Company consists of a single business segment, the Makuake service, a platform for people to make support purchases of new things and experiences, information by segment is omitted.

(2) Information on financial position

Assets

At the end of the quarter under review, total assets increased by \$3,663,723 thousand from the previous fiscal year-end to \$9,837,169 thousand.
